

INSTRUMENTS OF PEACE ORDER FORM

Instruments of Peace: A Franciscan Peacemaking Program will be available starting September 1, 2009 and we are currently taking pre-orders. *Instruments of Peace* is being offered as a result of a collaboration between the Franciscan Action Network, www.franciscanaction.org and Pace e Bene Nonviolence Service, www.paceebene.org. The goal of our action is to increase the spiritual depth and skills of Franciscans and Franciscan-hearted people so that the peace of Christ might more fully enter our world.

Instruments of Peace is a 10-session, intense immersion experience and spiritual journey for a small group (6-15 persons) to become Franciscan Peacemakers. It includes a process with prayer, stories, interactive exercises, sharing, music, readings, journaling, and action items. During the program the group will learn:

- How conflict and violence are a part of our life and world, filling gaps absent of love that we must not ignore.
- The many facets of injustice and violence in globalization, eco-justice, and in other cultural, social, political, economic and personal choices made on a regular basis.
- The Christian and Franciscan spirituality that must be part of the response to the world's anguish with regard to injustice and violence.
- How conflict can be transformed by peacemaking communications, conflict resolution and strategic action in our families, churches, neighborhoods, nation and world.
- Strategies and methods to be effective Franciscan peacemakers in our everyday lives.
- A potential for a new sense of excitement and deepening of faith.
- How the processes of globalization can either lead to peace-building or violence; as Franciscans, we work to build peace.
